

Here are Two Things you Can Do with money

Keep it Hidden in some cranny about the house—A burglar knows every possible hiding place—Fire can always reach it—and it will pay you No Interest.—or

Bank it Safely in this Safe, Helpful Bank, where it will aid you in many ways every minute it is on deposit.

You Have Your Choice—Every Point is in favor of the second method.

Cooking as High Art.

Cooking is a high art. A wise Egyptian said, long ago: "The degree of taste and skill manifested by a nation in the preparation of food may be regarded to a very considerable extent proportioned to its culture and refinement."—Elizabeth Cady Stanton.

Remember This.

To extinguish flames from petroleum pour milk over them and they will be put out immediately, for the milk forms an emulsion with the oil and prevents the fire from spreading.

Cheer Up.

Don't spend your time mopping up the sunbeams with a moody face, as a blotter absorbs ink. Don't stick around as solemnly as an owl. Crack a smile if it breaks your heart, and don't be so cross, crabbed and crusty. If you are wedded to worry, smiles will get you a divorce. Cheer up, you curmudgeon, cheer up!

Incubation in Ancient Days.

The artificial incubation of eggs dates back to the early Egyptians who used ovens heated with fermenting manure.

Famous for Date Palms.

Bagdad is famous for especially flavored date palms. There are several famous date forests about the delta of the Tigris and Euphrates. One of the most interesting and useful relics of the Moorish civilization that remains in Spain is the most wonderful palm grove in the world. It might be called a fitting monument to the foresight and careful husbandry of those unfortunate people.
